

Bring HIM home

FOR six years British lads have fought, bled and died in far-off lands in a quarrel that was not of their making and in the interests of a class which exploits them in peace as it conscripts them in war.

Although the European War is over, most of them have a long time to serve. UNLESS POLICIES ARE CHANGED.

There would be no need for a prolonged military occupation of Germany if the workers there were given the opportunity to take power, thus destroying Nazism utterly. The end of the Japanese War could be speeded by offering the peoples of the East a Peace which would destroy Imperialism.
