# OOPS Fire!

By Aleks Rogaczewski, Filip Nylz and Adam Brant

Small wattle and daub school  
accidentally has burned down. Thanks to  
the hundreds of men who carried  
bricks, the new brick school has risen!

The whole community helped  
from women carrying water

school boys handing out bricks and  
European builders and native men  
laying the bricks.

Even little boys have helped  
by using broken bricks to  
make the floor.

We hope the children enjoy  
their new school.
